TELEGRAMS.

THE BALKAN FERMENT. WAR FEVER IN TURKEY.

Router's
(Service to the "Telegraph.")
London, October 3.
The war fever is spreading in Turkey, where the people are clamouring for war. All classes are eager to contribute to the war funds and are infuriated at the publication of despatches alleging that Moslems are being maltreated at Philippopolis (Bulgaria).
The proclamation of the Committee of Union and Progress promises the Government its support and the whole of its influence. The cabinet of Constantinople struck work on Sunday, but resumed because the Fatherland was threatened.
The representatives of 30,000 Albanians have telegraphed their readiness to fight for the Fatherland.
Greek warships stopped and took off the crews of two Greek steamers between Zoa and Constantinople.

GERMANY CALM.
Semi-official statements in Berlin are published to the effect that the Powers have long considered the possibility of this outbreak, but Germany is unconcerned, as she is confident that it will be localised. The statements rebuke the German bourgeois for going into a panic and giving a false idea of Germany's economic position.

PEACE EFFORTS.
M. Poincaré, the French Premier, at a diplomatic reception in Paris, spoke most strongly to the Balkan States. Italy also is counselling moderation to the capitals of the Confederacy. The Powers are not relaxing their efforts to arrest the mobilisation and effect a compromise between them and Turkey, subject to reforms being granted in Macedonia.

REFORMS WANTED.
The attitude of the Confederacy is evidenced by the semi-official pronouncement made in Belgrade declaring that the Confederacy does not seek territorial extension but to carry out the reforms which the Powers themselves undertook.

FIRING BEGINS.
Bulgaria and Serbia have stopped all railway traffic to Turkey. Passengers for Constantinople by the last train allowed to pass heard sharp firing at the frontier station of Mustapha Pasha.

A CONFERENCE.
Count Berchold has an hour's conference with the King of Greece.

A POSSIBLE RESULT.
Later.
The belief is expressed in many quarters that an outbreak in the Balkans would lead to immediate peace between Turkey and Italy, and this would free the Turkish fleet and facilitate Turkish operations in several directions.

CONFLICTING DEMANDS.
Concerning the question of peace or war, it is pointed out that the difference between the demand of the Confederacy for an autonomous regime in Macedonia and Turkey's reform project is immense, the two being almost irreconcilable.

The Powers are making strong representations to Turkey, but are far from suggesting the adoption of the ideas of the Confederacy.

VESSELS HELD UP.
Greek and Bulgarian grain vessels destined to various Continental ports have been detained by Turkey.

Exporters and bankers at Rostoff have telegraphed to the Russian Premier urging him to take measures to induce Turkey to release the boats.
BRITISH WATCHFUL.
Router's correspondent at Malta wires that, pending the return of the fleet to Malta, the cruisers "Hermes" and "Weymouth" now at Gibraltar have been ordered to view the coast of the East.

TELEGRAMS.

THE BALKAN FERMENT. HOPES FROM PARIS.

Router's
(Service to the "Telegraph.")
London, October 3.
M. Sazonoff, the Russian Foreign Minister, had lunch with President Fallières. Much is expected from the Paris conference regarding the Balkans.
STARTLING REPORTS.
To-day's reports include rumours of a Turkish attack on the Montenegrin frontier, the stoppage of Turkish aeroplanes and munitions by Serbia, and a statement that Roumania remains neutral.

PROHIBITION.
Router's correspondent at Constantinople says the Government has prohibited the export of cereals from European Turkey.

TELEGRAMS.

CHINESE FINANCE. LOAN FROM BELGIUM.

Router's
(Service to the "Telegraph.")
London, October 3.
A message from Router's correspondent at Peking states that a Belgian syndicate has arranged for a loan of ten million sterling in connection with the contract to construct a railway between Honan-fu and Sian-fu.
The loan will be secured on the railway, which will be built under foreign control.

AN M.P.'S ACCIDENT. THROWN FROM DOGCART.

London, October 3.
Mr. J. Dillon, M.P. for Mayo East, was thrown from a dogcart at Ballaghaderreen, Mayo, and sustained serious injuries.

TELEGRAMS.

THE STARVING TRICK. ANOTHER RELEASE.

Router's
(Service to the "Telegraph.")
London, October 3.
Gladys Evans, one of the Dublin suffragettes who was in August sentenced to five years imprisonment for committing an outrage at the Theatre Royal on the occasion of the visit of Mr. Asquith, has been released from gaol on similar grounds to Mary Leigh, who was sentenced at the same time and who was discharged from prison after refusing to take food for 44 days.
The release was the result of medical advice, the woman's condition being grave.

TELEGRAMS.

HOME RACING. JOCKEY CLUB STAKES.

Router's
(Service to the "Telegraph.")
London, October 3.
The race for the Jockey Club Stakes, run to-day at Newmarket over a distance of one and three-quarters miles, resulted as follows:—
Prince Palatine (O'Neill) 1; (Steadfast (Wootton) 2; Adamite (Mayer) 3.
Nine ran. Won by half a length, five lengths separating second and third.
The betting at the start was:—5 to 1 against Prince Palatine, 9 to 4 on Steadfast, 25 to 1 against Adamite.
King William was ridden by Jones, Silesia by Wheatley and Lorenzo by Whalley. Catmint did not start.

TELEGRAMS.

HOME POLITICS. NO HOME RULE PLEDGE.

Router's
(Service to the "Telegraph.")
London, October 3.
Mr. McKenna, speaking at Aberystwyth, denied the statement made by Mr. Pike Pease to a pledge having been given to the King that Home Rule would not be passed before an appeal had been made to the people. He also denied the rumour that there were dissensions in the Cabinet. The Cabinet was resolved to carry out its programme.
PREACHERS OF TREASON.
He had been besieged by enquiries as to how long certain Privy Counsellors would be allowed to preach treason. He said that these arch-offenders were skilled lawyers, who were most careful to keep on the right side of the law. Their speeches would not do much harm because they were not taken seriously.

NEWS FOR BUSY MEN.

TELEGRAMS.

THE NEWS CONDENSED.
Prince Palatine won the Jockey Club Stakes, beating Steadfast by half a length.
Convicts at Wyoming lynched a negro prisoner charged with assaulting an old woman.
Mr. J. Dillon, M.P., has sustained serious injuries as a result of being thrown from a dogcart.

LOCAL.

Three men were fined this morning for using false scales.
The half-yearly meeting of the Hongkong Jockey Club will be held to-morrow.
The Philharmonic Society will start their rehearsals about the middle of the month.
Two pilferers from the godowns, at Kowloon, were sent to gaol for seven days each, at the Police Court, this morning.

STRINGENT CRITICISM.

THE DELAY IN BUILDING THE NEW POST OFFICE.

COMMITTEE REPORTS THAT IT COULD HAVE BEEN AVOIDED.

The committee appointed to enquire into the causes which have led (1) to an expenditure on the new Post Office in excess of what was anticipated and (2) to delay in its completion, and (3) whether both results were unavoidable, or (4) were due to the methods employed in carrying out the work, have reported to the Legislative Council as follows:—
The cost of building the Post Office, as originally designed, was estimated, in the first instance, at \$525,000. This amount was increased to \$603,750, in consequence of Government deciding in July 1903 to add another storey to the building. The first estimate did not include the cost of the foundations. These a contractor, in November 1903, undertook to lay for \$134,000, but as the work proceeded it was found necessary to put in piles of greater length than had been contracted for, and to lay down a concrete and asphalt basement, whereby the estimate for the foundations was raised to \$168,000. Not until January 1908 was the work of laying the foundations complete. Meantime, Government had decided that all the mouldings to the level of the top parapet should be of granite, and had authorised the architects to use steel instead of wood where it was considered to be advantageous, and otherwise to allow for wood of the best kind. Accordingly the architects prepared a revised and more detailed estimate, based upon these modifications of the original proposals, and including the cost of heating, lighting, and various other necessary fittings. These modifications account for the estimate of the cost of the superstructure being increased by \$44,200 to \$647,950, and the total cost, inclusive of the foundations, to \$858,100. That was in May 1908, nearly two years after the original plans had been accepted. Tenders for the superstructure were then called for. The lowest received, and the one accepted, was \$13,900 in excess of the revised estimate. Two suggestions have been made to account for this increase. The first was that contractors almost invariably tender higher for Government work than for work to be executed by private architects. The second was that the building trade was then active; wages were high; materials were dear; consequently contractors fearing a continuance, or even an increase,

of the situation thus created, did not deem it advisable to calculate as closely as the architects had done.

3. By this increase the total estimated cost was raised to \$872,000. Subsequently a decision to erect a clock tower on the building brought the figure up to \$929,250. This sum is short of the actual expenditure, up to date, by \$110,750. That is to say, the building, still unfinished (inasmuch as the clock tower remains to be erected) has cost \$1,040,000.

The largest item in this further increase of \$110,750, is \$51,195. It is stated by the Director of Public Works to be due to the inadequacy of the quantities in the "Bill of Materials" furnished by the architects. When asked for an explanation Mr. Ram stated that it was the first he had heard of it, and that in the absence of particulars he could not say whether his bill of quantities was inadequate or not. To some extent it was presumably due to changes in the roof plan, which entailed the heightening of the interior walls. The remaining \$59,555 covers the cost of alterations and additions made in working out the plans, the principal items being \$14,587 for increasing the iron columns and girders in concrete, \$11,000 for the substitution of iron for timber purlins in the roof, \$6,075 for sanitary fittings, and \$5,838 for the provision of letter boxes for boxholders. The balance is distributed over numerous small requirements not originally provided for. In view of these facts the committee finds that the excess of actual over anticipated expenditure has been chiefly caused by numerous alterations of, and additions to, the original plans, and the necessity for which in many cases should have been foreseen. Foresight in anticipating requirements would have reduced the discrepancy between actual and estimated expenditure but, except as regards the clock tower, it has not been demonstrated that there has been excessive expenditure on the work done.

As regards the clock tower the committee finds that avoidable expenditure was incurred. The tower was first of all built up to the level of the third storey, in granite, and carried up in brick to the level of the top parapet. Not until then did the Public Works Department go into the question of the adequacy of a tower built partly of brick to stand the weight of the proposed superstructure above the level of the roof. The question being then gone into, without reference to the architects, it was decided to pull down that portion of the walls built of brick and to substitute granite. The expense of building up these brick walls, and of pulling them down again, might clearly have been avoided by an earlier study of this most important question.

Summarising the main facts appearing in evidence furnished by the witnesses examined, viz., Mr. Chatham, Director of Public Works, Mr. Fisher, Executive Engineer, and Mr. Ram of Messrs. Denison, Ram and Gibbs, the consulting architects, the Committee finds that:—
(1) Increase of cost was due (inter alia) to conditions of the labour market, additions and alterations to plans and specifications which were approved by Government including various alterations on account of the clock tower, and to quantities being in excess of the original calculations. The total cost was not on the whole excessive having in view the style of construction. This leaves out of consideration loss of interest, of rent of old Post Office building, &c., entailed by the delay and any further claim which may yet be established by the contractor arising out of the same cause.

(2) The delay could have been avoided. The chief causes were as follows:—
(a) Detention by the Director of Public Works of the roof plans for a period of over two years, after which they were rejected.
(b) Differences of opinion between the architects and the executive engineer as to what drawings were required and also as to certain constructional requirements.
(c) The strained relations that existed between the architects and Mr. Fisher, the Executive Engineer in charge of the work for most of the time.
There were employed on the work (a) a firm of consulting architects who state that they were hardly ever consulted about changes in the plans and who also complain about the attitude of certain of the Public Works Department employees; (b) The Director of Public Works whose time was more than occupied with other matters and who therefore was unable to supervise the work with promptitude and (c) the executive engineer who complains of defectiveness in the plans furnished by the architects, on the one hand, and of indifference on the part of the Director of Public Works on the other, the latter having no real executive power, while his criticisms were ignored and he was furnished with insufficient assistance in carrying out the work.

(a) Mr. Fisher stated that he had to do a large amount of work in the way of drawings &c., which formed no part of his proper duty; (b) Mr. Fisher received instructions from the Director of Public Works which were liable to misconstruction, and as to the carrying out of which, the Director of Public Works never subsequently made any enquiry; (c) The position thus created was a conducive either to the efficient, or expeditious, carrying out of the work. If it had been entrusted either to an efficient, executive engineer, or to the architects who designed the building, no delay need have occurred.

At various times during the period of construction of the Post Office, Mr. Fisher was employed on other work, viz., Courts of Justice, Harbour Office, Western Market, Quarters for District Officer, Tai Po, Yau-mai School, Stable and Approach at Tai Po, Volunteer Headquarters, Morbury, &c., Kowloon, Time Ball Tower, Blackhead's Hill, Underground Urinal, Peak Road, Ohelisk in Kowloon, Land Office, Tai Po, Bungalow at Tai Po, Roof over Blake Pier, Market Kowloon Point, Staircase to Ball Room, Government House, Removing and re-fixing Statue of His Majesty the King.

He had for a portion of the time so employed, two qualified engineers assisting him. It would have been preferable to have relieved Mr. Fisher of some of these works: in fact, to have divided them up among the staff of three, each one being responsible for his own share.

The committee finds in effect that a small part of the extra expense, and almost the entire delay was attributable to a bad system being worked in such a manner as to aggravate its worst features.

Accordingly the committee makes the following recommendations:—
(a) The Director of Public Works should be relieved of the less important routine work of his department, such matter being distributed among his assistants; he would then be able to inspect works in progress frequently and generally to give prompt and effective supervision to all branches.

(b) The works undertaken by the department should be under the direct supervision of engineers who should have sufficient power to ensure the details of the works being carried out properly, without undue reference to higher authority; each should have only such works in his charge as he can superintend effectively and be should be directly responsible for the execution of those works, under the general control of the Director of Public Works.

(a) Mr. Fisher stated that he had to do a large amount of work in the way of drawings &c., which formed no part of his proper duty; (b) Mr. Fisher received instructions from the Director of Public Works which were liable to misconstruction, and as to the carrying out of which, the Director of Public Works never subsequently made any enquiry; (c) The position thus created was a conducive either to the efficient, or expeditious, carrying out of the work. If it had been entrusted either to an efficient, executive engineer, or to the architects who designed the building, no delay need have occurred.

At various times during the period of construction of the Post Office, Mr. Fisher was employed on other work, viz., Courts of Justice, Harbour Office, Western Market, Quarters for District Officer, Tai Po, Yau-mai School, Stable and Approach at Tai Po, Volunteer Headquarters, Morbury, &c., Kowloon, Time Ball Tower, Blackhead's Hill, Underground Urinal, Peak Road, Ohelisk in Kowloon, Land Office, Tai Po, Bungalow at Tai Po, Roof over Blake Pier, Market Kowloon Point, Staircase to Ball Room, Government House, Removing and re-fixing Statue of His Majesty the King.

He had for a portion of the time so employed, two qualified engineers assisting him. It would have been preferable to have relieved Mr. Fisher of some of these works: in fact, to have divided them up among the staff of three, each one being responsible for his own share.

The committee finds in effect that a small part of the extra expense, and almost the entire delay was attributable to a bad system being worked in such a manner as to aggravate its worst features.

RE-BUILDING DELHI.

AN EXPERT'S ADVICE.

London, October 3.
Mr. Herbert Baker, a well-known South African architect, in an article to the "Times" extending to two columns, discusses the problem of building the new Delhi. He urges that the classic style of Inigo Jones and Sir Christopher Wren should be adapted to Indian conditions. The "Times" in an editorial, endorses the suggestion.

PRISON JUSTICE.

LYNCHED BY CONVICTS.

London, October 3.
A telegram from Rawlins, Wyoming, says that 150 convicts in the State prison lynched a negro prisoner charged with assaulting an old woman.
The convicts overpowered the guard, who were transferring the negro to another cell, tied a rope round his neck and dropped him over the balcony.

SPECIAL SALE OF WORK

IN AID OF

The Orphans and the Home
for the Destitute.

The Superiors and Sisters of the
Italian Convent have the honour to
announce that their

Annual Sale of Needlework,

comprising Ladies' and Children's
dresses, embroideries, table covers,
handkerchiefs and a variety of articles
suitable for presents, will be held at the
Convent on the

1st, 2nd, 3rd, 4th and 5th
October, commencing each day at
10 a.m.

A Special Feature of this year's Sale
will be a Children's Stall on which will
be displayed a fine assortment of Sweets
and Chocolates specially selected from
the Manufacturers in Switzerland. This
Stall is certain to delight the little ones.
Charming little packets of confectionery
can be had for five cents each. Besides
these, there will also be a large range of
bonbons all done up in fancy and dainty
boxes of attractive design. Every one
of these boxes is moderately priced.

The Superiors and Sisters beg to
solicit the patronage of a generous
community to aid the work of providing
for the maintenance of the large number
of Orphans at the Convent and its out-
lying branches.

General Nogi's Suicide.
Much has been said about the
spirit of Bushido and the moral
lesson to the country given by the
General in his death; which, ac-
cording to this view, was a pro-
test against the decay of the
Yamato spirit. That very vague
cult of chivalry known as Bushi-
do, however, receives so many
varying explanations that it is
difficult to say what it sanctions
and what it does not. The "Japan
Times," a paper edited by Japa-
nese, strongly denies that Bushi-
do sanctions suicide. Bushido,
according to this authority,
means doing one's duty to the
best of one's ability, and General
Nogi, in deserting the young
Emperor, was therefore guilty of
giving way to his own emotions
to the neglect of his duty.
Other papers again look upon
suicide as an essential part of
Bushido in wiping out any dis-
grace. Death is from this point of
view an atonement—an idea, it
may be suggested that is not al-
together unknown in the West.
It will thus be seen that there is
unanimity among the Japanese
themselves, and in these circum-
stances to state that the West can-
not appreciate the General's idea
in committing the act is merely
to say that both West and East
are equally mystified. All we
can say is that General Nogi's
life was his own, to live or take
as he thought best. "When all
is done," wrote Sir William
Temple, "human life is, at the
greatest and the best, but like a
froward child that must be played
with and humoured a little to
keep it quiet till it falls asleep,
and then the care is over." It
was to meet this sleep and to gain
freedom from care that General
Nogi went.

South China Morning Post.

The Financial Review.

Notwithstanding the disturbed
condition of neighbouring terri-
tories due to the revolution, the
colony survives a year, disappoint-
ing in many respects to business
people, with a handsome surplus
of \$512,803 and passes on to an-
other financial year with a balance
of assets amounting to no less
than \$2,339,732. The chief fea-
ture of such an agreeable state of
affairs is that the Government is
enabled with equanimity to
contemplate embarking upon
certain expensive schemes which,
for lack of the where withal
and for other reasons, have
been held in abeyance for some
years. Notable among these is
the proposal to erect a wireless
station in Hongkong. The Im-
perial scheme of linking the
colony with the Empire chain is
deferred indefinitely, but when it
materialises, as it no doubt will
some day, it will not in any way
mitigate against the usefulness of
the local station which is now
proposed to be erected, nor will
the local station affect the Im-
perial and commercial purposes
of the larger and more costly
installation. The one will be
purely for ship to shore work,
the other for linking up this
remote outpost with other parts
of Empire. The former con-
stitutes the first and more im-
portant requirement of Hongkong
in the matter of wireless and the
business community of this colony,
whose interests are so largely
involved with those of the mar-
cantile marine, are therefore ex-
tremely gratified at the tone of
His Excellency's announcement.
A public station capable of com-
municating with ships for a
radius up to

GENERAL NEWS.

Consular Change at Shanghai.

Mr. Borgholz, lately American Consul at Canton has been appointed Consul-General at Kingston Jamaica, and Mr. Cheshire is appointed to Canton as Consul-General.

Cholera in Osaka.

Sept. 21.—Three more cases of cholera are reported from Osaka, one being an engineer on the South Manchurian Railway who arrived from Dairen by the s.s. Tainan-maru on the 18th inst., and put up at a hotel near Nippon-hashi. He died yesterday afternoon. A maid in the hotel caught the disease and also died, while another guest, one Kawamura, a dealer in piecegoods, who recently arrived in Osaka from Shimonoseki, is suffering and in a critical condition.

Proposed Organization of Garrison for Chosen.

The proposed organization of two new army divisions as the standing garrison for the Peninsula of Chosen is now under heated discussion says the "Manchuria Daily News." The military authorities are, however, conducting the negotiations for the purchase of lots of land for the purpose at Ryusan, Pingyang, Hakubasan, Huining and other places.

Mr. Enoch Edwards's Estate.

Mr. Enoch Edwards, M.P. for Hanley, and president of the Miners' Federation of Great Britain, who died on June 28, left the whole of his property, which he valued at £3,192, in trust for the education and support of his son, William Arthur, until he attains 21 years of age; and then for his sons James Henry, Enoch Albert, and William Arthur equally. Probate is granted to William Carlidge, of Waterlool-road, Burslem.

Buffaloes v. Train.

An extraordinary accident has taken place on the Siam Southern Railway at Kram among those injured being Mr. G. Canova, the superintending engineer. The train was approaching Kram when a herd of wild buffalo was seen in the distance. The whistle was sounded and the animals, although at a considerable distance away, immediately charged the approaching train. It was derailed and a number of the passengers were severely injured, one dying almost immediately. Mr. Canova was badly hurt.

The Proposed Sarawak Committee.

Advertising to the Sarawak committee which it is proposed to form in London "to provide for the support of the Government in Europe against those who might wish to intrude against and injure the independence and integrity of the country" the moment will, a writer in the "Observer" remarks, be successful in proportion as public opinion can be aroused to sympathy with the little country which represents the most picturesque and most successful experiment in the government of coloured races by a white with the full consent of the governed, over made in the world's history. It will, adds our contemporary, be a deep disgrace to England if, through ignorance and carelessness, the independence of Sarawak is allowed to be destroyed through a money-making intrigue.

Indian Opium Question.

The government of India notifies important changes in the internal opium policy, especially in connection with smoking and the preparation of smoking material, both of which it invites the provincial governments, including Burma, to prohibit absolutely by legal enactment when practiced in saloons or gatherings numbering more than two persons. The government negates the proposal to prohibit individuals from smoking as being at present impossible and involving inquisitorial methods, but proposes to reduce the amount of opium which an individual may lawfully possess, and to increase the price of opium sold by the government with a view to discouraging all cases from the consumption of the drug. The rules for the sale of opium and allied opium compounds are also revised with a view to making a few words of

THE HARBOUR SWIM.

Interesting Contest for the "China Mail" Cup.

[Owing to pressure on our space the following report was held over yesterday.]

The swimming race across the harbour, for the cup annually presented by the "China Mail," took place on Wednesday at 5.30 p.m. Nineteen entries were on the card, but Hall and Moss were absent. The starting-point was Kowloon police pier, and round this spot was a goodly number of lunches laden with enthusiasts who gave the competitors a rousing send-off. Mr. Frank Lumiere acted as starter.

The conditions governing such a swim could hardly be expected to be perfect; Chinese sampan folk and wheelmen of launches are slow to enter into the spirit of the sport, and thus the course is at any time liable to be fouled. On the whole, however, the swimmers had not a great deal to complain of. There was sufficient breeze from the S.E. to stir up a slight chop on the water, but the men did not appear to suffer more than slight inconvenience from this. The entries were as follow:—

Y. Abbas, A. V. Barroa, B. W. Bradbury, A. A. Claxton, F. Coleman, Gr. Colmer, R. G. A., Gr. Court, R. G. A., P. Daily, K. O. Y. L. I., A. H. Gifford, L. S. Hyndman, R. Lee, P. Miller, K. O. Y. L. I., W. B. Muskott, Br. Nutty, R. G. A., P. Smith, K. O. Y. L. I., L. C. R. Souza, F. M. Cruz.

Various launches followed the race, and the Praya on the Hongkong side was densely crowded, but we should have liked to see even more general public interest taken in the event. Hongkong, however, as we have observed before, is not readily roused to enthusiasm.

In certain quarters Claxton seemed to be a favourite, but those best-informed were of opinion that he was too much off training to hold his own against such an opponent as Bombardier Nutty. With the exception of one laggard, the men kept well together during the first fifty or sixty yards, Nutty leading by a trifling distance only; but very soon the gunner was seen to be markedly increasing the distance between himself and the second man, and Claxton could be counted sixth. Nutty's lead speedily increased to twenty yards and, by the time a quarter of the course was covered, to at least fifty.

It was here that he began to fall a little out of the direct line, and not a few others unconsciously followed his example, bearing several yards too far seaward. A general straggle was now becoming evident; men tailing off in twos and threes, the distance between the leader and the next two becoming more and more pronounced. Nearing the Tamar, Nutty made a quick bend for the line again, leaving the vessel on his left. As he passed H.M.S. Newcastle he seemed to be feeling the run of the tide considerably; more even than the second and third men, who were then close together, but over a hundred yards behind the foremost man. The latter, still keeping up a vigorous overstroke, now made a dead line for the V.R.C. and was soon seen to be quickening his stroke, appearing now as fit and fresh as when he entered the water. The second and third men followed pluckily, but Nutty continued to widen the space between himself and them, and, on reaching the winning-post, was a good deal more than a furlong ahead, having accomplished his swim in 30m 28.2.5 sec., and thus beating Logan's time in last year's race by nearly three minutes. The struggle for second place, between Lee and Miller, was a keen one, Lee eventually coming in about twelve seconds before the K.O.Y.L.I. men.

Seen immediately after the race, Bombardier Nutty looked the picture of fitness, and spoke very lightly and modestly of his achievement.

Later, a large company of sportsmen, together with a fair number of ladies, assembled in the gymnasium of the V.R.C. to witness the awarding of the prizes. Mr. W. Logan, President of the Club, (who, with Mr. A. Hodger and Dr. C. Forryth, had judged the race) spoke a few words of

congratulation to the three winners, mentioning incidentally that this was the fourth time that the first prize had been captured by a Service man. Bombardier Nutty, he said, had done well to win in so short a time, seeing how far he had gone out of his course; but for this, he might well have equalled, and perhaps beaten, the 1908 record, of 20 minutes. Mr. Logan then asked Mrs. Bryson, the wife of the Secretary of the "China Mail," to distribute the prizes, which were:—

1st—Silver Cup—Bombardier Nutty R.G.A.
2nd—Silver Cup—R. Lee.
3rd—Silver Cigarette Case—Pte. Miller K.O.Y.L.I.

At the close of the proceedings a bouquet was presented to Mrs. Bryson by the president of the Club. The following are the results of previous contests:—

1906. Gr. R. Brotherton, R.G.A. 27.42 4/5.
1907. A. E. Thomas, H.M.S. Tamar. 28.50 4/5.
1908. A. E. Thomas, H.M.S. Tamar. 26.
1909. C. J. Cooke, Hongkong. 29.26 2/5.
1910. T. Logan, Hongkong. 28.58 2/5.
1911. T. Logan, Hongkong. 33.16 2/5.

SPORT.

Second Division League Meeting.

The annual meeting of the second division of the Hongkong Association Football League was held on Wednesday Mr. H. Marsh presiding. Among those present were Mr. A. R. Ellis, Hon. Secretary, representatives from the K.O.Y.L.I. Submarine, 83rd Co. R.G.A. 88th Co. R.G.A. Boys Own Club, H.M.S. Tamar, H.K. Police, and the V.R.S.

The Secretary, Mr. Spill, Mr. Moss and Mr. Woods were elected as the Committee for the ensuing year.

The entries for the league close on October 21st, and the season commences the first week in November.

It was decided that notice of twenty-four hours should be given to the Secretary, the referee appointed and the opposing team regarding the postponement of a match. If this regulation is not carried out two points will be awarded the opposing team.

The meeting closed with votes of thanks to the chairman and the Secretary.

SOLDIER'S FALL.

Private Harry Stephenson, K.O.Y.L.I. was charged before Mr. E. A. Irving, at the Police Court, yesterday, with stealing a Japanese handbag from a shop No. 2, Queens Road East, last night.

Prisoner pleaded guilty. Inspector McHardy:—He went into this shop at eleven thirty at night—it was closing time—and asked to see a handbag. He was looking at this one (produced) and asked to see some others. Whilst the man was looking for some more to show him he made off with this one.

Mr. Irving:—Was he sober?

Inspector McHardy:—Yes, perfectly sober.

Mr. Irving:—Anything to say?

Prisoner:—No, Sir.

Mr. Irving:—One month hard labour.

Lullaby by Telephone.

The responsibility for the whole of this story rests with the "New York Tribune"—Staubenville, Ohio, Aug. 23.—Putting babies to sleep by telephone is the latest innovation in social circles here. This method of quieting fretting youngsters whose mothers leave them at home while they enjoy bridge was introduced by Mrs. Harry G. Zanier while attending an afternoon party. The nurse 'phoned to Mrs. Zanier that the baby had been crying for an hour and that she could not quiet it. Mrs. Zanier gave a few hurried instructions to the nurse. A moment later the guests were surprised to hear Mrs. Zanier singing a soft lullaby in the transmitter. The baby had been placed in a basket on a stand near the phone, the receiver close to its ear, and it was lulled into dreamland by the soothing tones of the mother's voice. In five minutes she had resumed her place at the card table.

HONGKONG, FRIDAY, OCTOBER 4, 1912.

THE BUDGET STATEMENT.

The first Budget statement submitted by H. E. the Governor yesterday is a notably clear and interesting review of the Colony's financial position. It is essentially a business-like statement, avoiding everything in the way of forensic eloquence and presenting facts and figures plainly and interestingly. The tenour of it may be expressed in a few words; the Colony is sound financially; there is a considerable balance on hand; and that balance, judiciously managed, will permit of certain necessary schemes being carried into effect.

It is impossible, at the moment, to do more than glance at a few of the points covered in the speech. We may, however, remark on the proposed increase in police expenditure of \$103,935. That is mainly due to additions to the establishments which have become necessary by reason of an enlarged force. There is ample need for the strength of the force being raised, in the light of recent events, and it is to be hoped that the addition to the estimate will result in largely increased efficiency. His Excellency paid a well-merited tribute to the troops for the excellent work they did during the period of unsettlement attendant on and following the Revolution in China. Useful as patrol work on the part of the troops may be, however, the authority of the police should nevertheless be unquestioned; and it was questioned more than once during the period already referred to. A strengthened police force is therefore welcome.

But by far the most interesting point in His Excellency's speech was that in which he dealt with the provision for a radio telegraphic installation. We are bound to say that this part of the Budget statement is somewhat disappointing, though that is no fault of His Excellency's. The Government consider that all that is necessary at present is a station for ship to shore communication with a range of not less than 600 miles under favourable conditions. That announcement, coming hard on the heels of a speech by the Postmaster General which raised hopes of an Empire chain of wireless, is rather regrettable. Admittedly, as His Excellency put it, "what this port really requires is the means of ship to shore communication," but a high power station, if not actually imperative, would be of immense service to the Colony. The value of linking up Hongkong by wireless with places within a range of 1500, or 2000 miles need not be stressed. From a naval point of view, alone, to be able to get into direct touch with Singapore, Shanghai, and Wei-hai-wei, for example, would be immensely to increase the value of the Far Eastern Fleet. But that, after all, is the business of the Imperial Government, and the utmost that the Government can do is to urge the matter upon the Home Government, so far as lies in its power. If the great scheme of an Imperial wireless chain is not proceeded with shortly, it is bound, in the very nature of things, to be postponed in time. And Hongkong will share in its benefits when it does come. Meantime the provision of a station useful to shipping is satisfactory in itself, though it may somewhat disappoint in its relation to what had been half hoped for.

DAY-BY-DAY.

The next thing into getting into debt is out of it.

U.S. Cruiser Arrives.

The U. S. cruiser, Cincinnati, arrived to-day from Foo-chow.

Vice-Consul's Visit.

Mr. A. P. Thompson, U. S. Vice-Consul for Foochow, arrived to-day on board the cruiser Cincinnati. He leaves for Shanghai by the Monteagle to-morrow, on vacation.

Fine Glassware.

Those of our readers who are interested in cut glass should not fail to visit Messrs. Kuhn and Komor's shop in Queen's Road. Mr. Kuhn has just received from America a large consignment of very beautiful glass. An inspection of this consignment will well repay the lover of things artistic.

Consented to Judgment.

This morning in the Summary Court Mr. M.J.D. Stephens appeared on behalf of Messrs. A.S. Watson and Co in a case where the company are suing E.A. da Silva to recover the sum of \$10.30 for goods sold and delivered.

Mr. Lee D'Almada Castro appeared for the defence and consented to judgment, instalments being ordered.

Sir Francis Pigott.

A rumour, apparently well-founded, is going the rounds to-day that Sir Francis Pigott has definitely been appointed Judicial Advisor to the Chinese Government. If this should prove to be true, we congratulate the ex-Chief Justice on his new appointment.

Hongkong Rifle League.

Mr. Northcote, secretary of the Hongkong Rifle League, is ready to receive entries for the coming season, 1913. There is a very handsome trophy to be competed for, presented by Mr. K. A. Bellios.

Curtis Hydro-Aeroplane.

We publish on this page an interesting interview with Mr. Younger, a "Birdman," who has just been refused permission to "fly" over the Colony. We wonder what would really happen to Mr. Younger if he should give an exhibition in Canton or Macao, and be wuffed, quite accidentally of course, by the gentle breezes that sometimes blow across Hongkong Harbour and the fortifications. Would one of our red turbaned heavy-booted Sikh policemen (the kind the would be burglar listens for in the stillness of the night—still, but for a quarter of a mile away noisy boots) be sent flying after him with a net? Eh? It would be funny wouldn't it?

Cricket.

A match will take place on Saturday October 5 on the Hongkong Cricket Club ground between Possibles and Probables, play to commence at 2 p.m.

Possibles.—W. C. D. Turner, A. N. Joseland, Lt. A. G. White, E. A. Fowler, Corpl Dampsey, W. J. Warburton, Lt. N. J. Williams, G. B. Sayer, M. A. Maas, S. S. Moore, B. Chapman, A. N. Other. Probables.—H. Hancock, Corpl Tavernor, R. E. O. Bird, E. B. Reed, Hon. C. Nover, S. H. Dodwell, Cnpt. R. D. Crawford, J. W. Stephenson, Jellie, R. P. Thursfield, C. C. Clarke, E. Beswick, E. J. McNulty.

FOREIGN COAL IN INDIA.

The Fukuoka "Nichi Nichi" states that the coal supply in various parts of British India is short, owing to the railways being congested by the carriage of agricultural produce, due to an exceptionally rich harvest. Australian, Borneo, and Kyushu coal is in great demand. A contract has been signed for the shipment of North-eastern Kyushu coal, to the amount of 140,000 or 150,000 tons to Colombo, Bombay, and India, delivery extending until next spring. Early this year the Onikubo collieries realised a long-cherished ambition by exporting coal west of Singapore, shipments amounting to 300,000 tons being made to Colombo, owing to the coal strike in Great Britain, and they look upon the present situation in India, as a further fulfilment. Stocks at Moji and Wakamatsu are being reduced, and prices show a corresponding tendency to advance. The stocks at Moji on the 15th inst. comprised 53,446 tons of lump, 44,015 tons of mixed, and 50,424 tons of dust, showing a total decrease of 1,504 tons on the quantity on the 31st.

FORBIDDEN FLIGHT.

Well-Known American Aviator Refused Permission.

Mr. W. C. Younger, now of Manila, but originally from St. Louis, Mo., arrived to-day by the a.s. Nile with a Curtiss Aeroplane with which he had hoped to "fly" in Hongkong; but he has been forbidden by the Military authorities. The reason,—he was given to understand,—is that the fortifications must not be seen, even by a Birdman!

Mr. Younger is one of America's foremost aviators, and has achieved a well deserved reputation on the Pacific Coast for his daring flights.

When seen to-day by a "Telegraph" representative, Mr. Younger said:

"I am disappointed that I am not permitted to fly here, as the harbour would have given me an excellent opportunity to demonstrate the progress that has been made in the building of air machines, and I could easily have 'climbed' the Peak without paying fare on the railroad! However I am not permitted—so there is the end to that!"

Continuing—as to his career as a Birdman, Mr. Younger gives us this interesting information:

"I have been in air work for two and a half years and was granted my license as a 'Sky Pilot' on Sunset Field, Alameda, California. I have two machines at present—both of them of Curtiss' manufacture. The one that is now being transhipped from the a.s. Nile to the ship that steams for Manila to-morrow, is of the older Curtiss type; but I have broken height and time records with it. My new one is equipped with a 60 H. P. Hall-Scott, 8 cylinder engine, and I shall attain a speed of 65 miles an hour, carrying 3 passengers, with it. The new development of the Curtiss' plane is that it is both a Hydroplane and a land machine. That is to say that I use either bicycle wheels or the 'water floats'—depending upon what sort of a country,—or sea,—I have to cross. On this machine is installed that which I consider to be the most wonderful step towards the aviator's safety, viz: 'The Curtiss' new automatic stability device, that renders the upsetting of the plane almost an impossibility—I will be able to carry sufficient gasoline for 5 hours, at the rate of 65 miles per hour, continuous flying."

When asked about any accidents that he had had, the Birdman answered:

"Just before I left California to come out here I was asked to give an exhibition flight. It was blowing hard, and the air was thick with sand, but I started. Every thing went well on the first two laps; then the air was so thick that I could not keep my direction, and I fetched up—'Bang!'—against the only obstruction on the field;—a 40 foot flag pole! When I crashed into it I grabbed the smooth stick with both arms, and had the good fortune to be able to slide to the ground without a scratch—though my machine was smashed to kindling wood. That is the only really narrow squeak that I have had, although my hair has almost 'stood on end' in what we call 'air holes' at great altitudes, when the machine drops out from under one's feet for a moment as much as 300 feet. It is not a nice feeling, I assure you!"

"In aviation, as in everything else, a cool, level head is the one great essential!"

In reply to a question as to whom he thought to be the best Birdman still alive, Mr. Younger said:

"Curtiss, by all means! He takes no fool chances, yet manages to break records, and he does not do the idiotic things that only result in frightful deaths, and prejudice the public against the work."

Mr. Younger is staying at the Grand Hotel.

Stocks for Boy.

At the Police Court this morning, a boy was sentenced to twelve strokes of the birch and four hours stock for cutting and wounding another boy on a coal junk at Wanohai. The complainant and the defendant were both bound over to keep the peace for twelve months.

OPIMUM CAPTURE.

Another Haul on an Australian Steamer.

The police have been successful in making another opium haul on an Australian steamer, this time the Prinz Waldemar. They have also been able to charge a man with being in possession of and trying to export \$225 worth of the amount found. There is \$2,275 worth of the drug which cannot be connected with any particular person.

At the Police Court this morning a man was charged with being in unlawful possession of 245 taels of opium valued \$1,225, on board the a.s. Prinz Waldemar, and also with endeavouring unlawfully to export the same.

L. S. Wills prosecuted and Mr. Lewis of Messrs. Johnson Stokes and Master defended.

A Saloon Boy.

A Chinese constable said he was on board the a.s. Prince Waldemar this morning and saw the prisoner carrying the hand-bag, produced. Witness stopped him and asked him what was inside the bag. Prisoner replied "nothing." Witness then opened the bag and found it contained a quantity of opium. Close by where witness stopped him a basket was found containing ninety-one tins of opium. Witness asked one of the other basket belonged to him and he said no. He seized the defendant, ordered a coolie to carry the bag and took them to the station. There were forty-nine tins in the bag.

By Mr. Lewis:—Defendant was a saloon boy. He had not seen him on the ship previous to his arrest. The vessel was discharging and loading but he did not see a number of lighters and launches alongside.

Mr. Lewis:—I put it to you that you arrested this man when he was standing by the side of the bag, and that he hadn't it in his hand at all?

Witness:—He was carrying it.

Not on the Deck.

The witness denied that defendant had told him it had been handed up from a lighter and that he offered to go into the latter and point out the man who handed it up. It was not true that shortly afterwards a second man who was pointed out as owing the opium was arrested and afterwards let go. He did not refuse to go on the lighter. The opium was in the prisoners hand and not on the deck.

For the defence Mr. Lewis contended that the prisoner only handed the bag to put it on the deck as it was handed up to him from a lighter. He understood that another man had been arrested by the constable but let go.

L. S. Wills:—These cases are getting very common on the Australian steamers and when they get to the other side they are heavily fined.

Defendant then gave evidence and denied that he had hold of the bag when arrested. A man from a lighter asked him to assist him with the bag, and it was passed to him. Another man was arrested and let go.

Defendant was fined \$500 or in default three months on the first charge, and on the second charged dismissed. The opium was forfeited to the crown.

PARTNER ABSCONDED.

This morning in the Summary Court before the Puisne Judge Mr. Justice Gompertz, C.E.A.G. Inghenish trading as the Oriental Tobacco Company sued C. A. G. Bearwolf to recover the sum of \$607.50 for goods sold and delivered.

Mr. W. E. L. Shenton of Messrs. Dawson Looker and Deacon appeared for the plaintiffs, but the defendant was not represented.

Defendant admitted that the money was owing but said that his partner, a Chinese, had absconded and taken the books with him.

Judgment was entered for the plaintiffs, an arrangement to be made as to the payment of instalments.

BANK'S NEW

COMPRADORE.

The new compradore for the local branch of the Hongkong and Shanghai Bank is the son of Mr. Ho Tang, who has been compradore at Messrs. E. D. Sassoon's. The agreement between the bank and the new compradore was signed this morning.

POLICE PROCEDURE.

Mr. Harding Severely Cross Examines a Constable.

The adjourned case in which Mr. Harding defended a man charged with being a rogue and vagabond, loitering in Connaught Road Central with a felonious intent, came before Mr. E. A. Irving, at the Police Court, this morning.

The Chinese constable preferring the charge again entered the witness box.

Mr. Harding:—Nine days ago defendant was tried before Mr. Melbourne was he not?

Witness:—Yes.

On exactly the same charge?—Not the same.

Was he not charged with being a rogue and vagabond in Connaught Road Central with a view to committing a felony?—Yes.

Mr. Irving:—The same charge? Mr. Harding:—Yes, the same charge. And you brought that charge did you not?

Witness:—I did.

Mr. Harding:—And the complainant complained that you had some feeling against him, did he not?—No.

What! He did not?—No.

Defendant gave evidence on that occasion did he not?—Yes.

And proved he had a fixed place of residence at West Point?—Yes.

And his wife and mother were living there with him?—Yes.

He also gave evidence that he was engaged in business everyday?—Yes.

And he called an additional witness to corroborate the fact that he was engaged in business everyday?—Yes.

And upon that the Magistrate decided he was not a rogue and vagabond and discharged him?

Mr. Irving:—When?

Mr. Harding:—24th September. And the Magistrate decided he was not a rogue and vagabond?

Mr. Irving:—At any rate he discharged him.

Mr. Harding:—Yes, after evidence had been given. I submit in this case it is the same charge and dates have been given you which are not subsequent to the last charge. The man was tried on 24th September—nine days ago, and the dates given to your Worship are previous to that, and the Magistrate's decision has been given on them.

Mr. Irving:—Did he find that he was not a suspected person nor there with felonious intent?

Mr. Harding:—Yes. The dates given are the 14th, 18th and 22nd. There are no new dates given; the only dates given are previous to the trial. He was tried before and evidence fully given.

Mr. Irving:—I do not know on what grounds Mr. Melbourne tried this case. I think it would be more satisfactory if this case were brought before Mr. Melbourne.

This course was agreed upon and later Mr. Melbourne remanded it.

THE TRAFFIC IN SLAVES.

The cases of kidnapping and trafficking in children which come frequently before the Shanghai Mixed Court reveal an extraordinary state of affairs says the "N. China Daily News." Under the Chinese law parents are permitted to sell their children and this system lends itself to abuse in every possible way, especially in the forging of alleged documents of sale.

Another feature of the traffic was revealed in the case of a hawker, charged with being concerned with three others not yet in custody in attempting to extort money by means of threats.

The complainant said that some time ago a child was left in her charge by its parents. On Wednesday the accused and three other men called at her house and said that if \$20 was not paid to them, they would charge her with kidnapping. She refused to give them any money and they created a disturbance. A Chinese constable came in and arrested one of the men, the other three escaping.

The accused was remanded to three months imprisonment, an order being made that he is afterwards to be expelled.

NOTES AND COMMENTS.

Rickshaws and Chairs.

The increasing tendency on the part of some of the members of the Legislative Council to take up, and to seek to abolish, certain legitimate grievances to which we have now and then drawn attention, encourages us to hope that, before long, some definite law or regulation will be framed to govern the behaviour of chair and rickshaw coolies. Already at Kowloon ferry-wharf the rickshawmen are being kept under better control, and there is less likelihood than there used to be of a passenger's being surrounded by half a dozen coolies all clamouring for hire. On this side, however, the state of things leaves much to be desired. At times, the man who calls for a chair stands an excellent chance of getting his eye knocked out by a stray chair-shaft; for it often happens that a dozen coolies will make a rush at him and, even after he has taken his seat, will still press round him, swinging their chairs irresponsibly.

The Rule of the Road.

The rickshawmen are as bad, and, in crowded spots (such as outside the Victoria Theatre at night) it is impossible for a foot-passenger to cross the road without risk of breaking his shins against the rickshaw shafts that waylay him on every side. Here, as at Kowloon, the coolies should be obliged to keep to one line and to wait their turn of being called up. As regards a rule of the road for rickshaws and chairs—if it be in existence it certainly is not followed. It should be no difficult matter to force the men in charge of these vehicles to walk or run on the left side of the roadway. At present, persons riding in chairs up the narrow slopes have their way impeded and risk an awkward collision, merely because chairs coming from the opposite direction elect to keep the same side of the road as they. Not only so, but the man walking up or down the slope is liable at any moment to be struck by a chair, coming on him suddenly from behind; a danger which would be absent if he knew that all chairs were keeping to their own half of the road.

Far Eastern Olympiad.

Our friends in Manila are apparently in earnest about the Olympiad proposed to be held in February next. But, then, Americans take up sport more earnestly—more scientifically, at any rate—than do British people. The average British champion is not caught young and developed, with watchful care, along the best lines; he develops almost haphazard. The ex-British quarter-mile champion and Olympic 400 metre champion, Lieutenant Hales, was a case in point. He was a wonderful natural runner—probably the best man at 440 yards Britain ever produced—but he never learned to run a race with judgment. He had never been carefully coached. In America the promising youth is taken in hand early and jealously watched. The utmost is made of him.

British Lethargy.

This brings us back to the original point that British athletes, until they regard themselves more seriously, cannot hope to emerge on top from an Olympic contest. The public apathy at home regarding the chances of the British team at the recent Olympiad at Stockholm was quite pitiful. Will the same have to be said of the coming Far Eastern championship? It is necessary now to set out upon the work of discovering the best men in each event and of having these men thoroughly fit when (and if) they take the field. Men cannot do themselves justice if they become really interested only a short time before the contest. If Hongkong is to play a part in the event, her athletes should make up their minds that she shall play a worthy part.

The military correspondent of the "Morning Post" understands that the new British rifle will not have an adjustable wind-gauge and will not be provided with an open sight in addition to the aperture sight which has been approved. The rifle will have only an aperture sight which is unadjustable for wind. This latter point is considered a disadvantage to the work of the wind-gauge which is highly valued.

SPECIAL CABLES.

FUTURE OF CHINA.

ENGLISH PROFESSOR
PESSIMISTIC.(Our Own Correspondent.)
London, October 3.

Lecturing before the London School of Economics, on his recent visit to the Far East, Professor Sidney Webb contrasted China unfavourably with Japan.

He declared that China seemed devoid of all the qualities of a great nation.

DEATH OF MRS. HEWETT.

We regret to announce that a telegram has been received by Mr. H. W. D. Shallard, acting superintendent in Hongkong of the P. & O. Company, from the Hon. Mr. E. A. Hewett, O.M.G., to the effect that Mrs. Hewett died on the morning of the 3rd inst.

It will be remembered that Mrs. Hewett has, for many years, been a confirmed invalid; and those who best knew Mr. Hewett have always been, and will be, loud in their praises of his care and devotion to Mrs. Hewett. He watched over her at all times, anticipating her every wish which he was ever ready to gratify to the full.

Though Mrs. Hewett's health precluded her from taking an active part in the social affairs of the Colony, her active mind was ever alert and she took a keen interest in all that affected the Colony's welfare. Her mind was far above the average and, had her health been such as would have permitted her to have taken that place for which her intellectual gifts so eminently fitted her, the Colony would have been the richer for her presence, as were those whose privilege it was to meet and converse with her.

COOLIE TRAFFIC.

Judgment Given This Morning.

The morning, in the Summary Court, Mr. Justice Gompertz, gave judgment in the case in which Wong Hong Chi, trading as Tai Yung Chan, brought an action against Wing Chang Chan and Lau Tsan Yau, claiming the sum of \$1,016, balance of money lent to the defendant by the plaintiff. The plaintiff waived the sum of \$10 to bring the matter within the jurisdiction of the Court.

Mr. Crowe, of Messrs. Hastings and Hastings appeared for the plaintiff, and Mr. D. H. Lewis, of Messrs. Johnson, Stokes and Master, for the defence.

It will be remembered that the defence was that the money was to be wiped off by deductions when the defendant gave the plaintiff shipments of coolies for Singapore and that the plaintiff, by going out of the business, had deprived the defendant of this means of making the payments.

His Lordship said that he was inclined to think that the arrangement was entered into that the coolies should be exported in batches of not less than ten, and that the written document produced was nothing more than a memorandum, which could not be explained without the evidence which they had had in court. He found for the plaintiff and gave judgment accordingly.

Mr. Lewis:—Will Your Lordship give instalments?

Mr. Crowe objected.

Mr. Lewis:—Originally it was to be paid by instalments of coolies.

His Lordship:—Yes within a certain time.

Mr. Lewis:—But I called evidence to show that he refused to take them.

His Lordship:—I am unfortunately against you; what offer can you make?

Mr. Lewis:—I don't know without consulting my client.

His Lordship said that if some offer of instalments was made it might be accepted, but that it might be brought up for consideration.

STRINGENT CRITICISM.

(Continued from page 1.)

(c) Before beginning any work a detailed estimate should be compiled and for the larger works accurate bills of quantities made and guaranteed as correct.

Such estimates are absolutely necessary for ascertaining the cost of works and it is of great advantage to have such from the point of view of the contractor, the public and of the Government.

(d) For the larger contracts there should be an estimating and measuring branch in the Public Works Department, composed of experts trained in that line; in addition to dealing with the bigger works, the members of this branch could assist generally, thus relieving other members of the staff of duties to which they are unaccustomed.

These Surveyors could also be employed in making occasional check measurements of work previously measured by the subordinate staff; this would tend to prevent collusion in over-measuring between subordinates and contractors.

It is desired to emphasize the necessity for the appointment of only trained experts for this branch.

(e) The forms of contract used by the department should be so worded as to throw the onus of making out bills for payment on the contractor; all bills should, of course, be checked and certified in the usual way by the responsible officials.

(f) The form, used for payments on account should include the amounts of the contract and retention moneys, the estimated values of work executed and materials allowed for, previous payments and any other such items as are necessary to show the state of the service at the date of payment.

FAMOUS YACHT.

Trial Trip after being Overhauled. The yacht "El Aguila" had her first trial trip yesterday after having been thoroughly overhauled at the Hongkong Whampoa Dock.

We understand the trial was a most successful one, and highly satisfactory in every way. She attained a speed of eleven knots over a measured mile, though the water was somewhat rough.

The yacht has an interesting history inasmuch as she originally was built for, and belonged to Senator Mark Hanna, who was the late President McKinley's closest friend and personal advisor.

At the time of the Spanish war Mr. Hanna loaned her to the United States Government as a Despatch Boat, and she did excellent service. At the close of the war she was sent to the Philippines in a similar capacity, and now she has been transferred to the quarter-master's Department in Manila, under the command of General Bell.

Captain Olsen is in command of her and he thinks that the new boilers will prove themselves equal to the work that the ship will have to do.

A re-arrangement of the cabins, has been made that add to the comfort of the officers.

The "El Aguila" steams on Tuesday for Manila.

CHILDREN'S SPORTS.

A letter in to-day's issue, from the secretary of the Kowloon Cricket Club, deals interestingly with the children's sports held on New Year's Day under the auspices of the club. Expenses on the last two occasions have been in excess of the subscriptions and the Sports, as at present held, may have to be discontinued.

Rather than face that, however, the committee make a strong appeal to the press to open subscription lists in their columns. The suggestion will be found in the letter which appears on page 5. The "Telegraph" will be glad to assist in this excellent work and will have pleasure in opening its columns to subscriptions. These will be duly acknowledged in our columns and the total sum contributed will be forwarded to the proper quarters.

Three men were charged before Mr. O. D. Melbourne, at the Police Court, this morning, with using false scales. Inspector Withers said the defective scale of the first man was 3 per cent. against the purchaser the second 4 per cent. the third 5 per cent. The first and second defendants were fined \$10 each and the third \$15.

ARMS ON A JUNK.

Man from Tai O Before the Court.

It will be recollected that a few days ago eleven men were charged with detaining near Tai O a man for ransom and one man was charged with having more arms than allowed by law on a junk, in connection with the others.

At the Police Court, this morning, before Mr. E. A. Irving, the man pleaded not guilty to using unlawfully a junk for trading purposes and being in possession of arms.

Sergeant Brazil:—Yes. Mr. Irving:—I understand you to say that a junk is entitled to carry part of the arms because they are arms belonging to the junk.

Mr. Irving:—Since you admit that some of these arms are attached to the junk what you have to prove is that he has no right to be on the junk?

Sergeant Brazil:—Yes, your Worship. On the 23rd of last month, about 9 a.m. the police boatman at Tai O Station called my attention to this man's junk. I went on board and found the arms produced. The junk was numbered 1387, not a Tai O boat, your Worship. I found two gongs, four muskets, one revolver, a slashing hook, two revolvers, two boxes of ammunition and one jar of powder. I took him to the station. I asked him if he was the master and he said he was.

Mr. Irving:—You are charging him with unlawfully using a junk for trading purposes without a licence?

Sergeant Brazil:—He produced a licence, your Worship.

Mr. Irving:—He had a licence?—Yes, but it did not belong to him.

What makes you say it does not belong to him?—Because it belonged to the man whose name is on the licence.

He gave his name as what?—Chen I Chin. On the licence the name appears to be Yun Sul.

The arms did not correspond with the armament on this licence?—Not at all, in excess, your worship.

He has not got any spears?—No. As a rule the arms you find on junks closely correspond with what's on the licence?—Yes; if they do not correspond we charge them.

It is strictly enforced?—Yes.

Any questions? Prisoner:—Your Worship these arms are not mine. They belong to Yin Chu Sou and I will have to wait for his arrival.

Mr. Irving (to Sergeant Brazil):—A curious thing is that you are charging him with using this junk for trading purposes without a licence but he says the junk belongs to Yin Chu Sou—junk and arms as well?—Yes.

If that is so he is not trading with an unlicensed junk?—The owner is bound to be on board, or a representative.

This man says he is on board for the master?—That is not the story he told me.

Well, it is what he tells me. After he was cautioned at the station did he make any statement?—No.

Prisoner:—Your Worship I would like you to give me a week's remand to wait for this man to come back.

Mr. Irving:—Is he the master of this junk?—Yes.

Have you written to him?—Yes I have written to him already.

It seems a very reasonable proposition.

Sergeant Brazil:—Your Worship, when he last appeared before you, four days ago, he said he would have this man down in two days; it is now four days and he has not got the man down.

Mr. Irving:—This man has been in custody for a week?—Yes.

Well, it appears to me that he is the principal sufferer and he is standing to lose by it. I will give you a remand for a week.

False Scales.

Three men were charged before Mr. O. D. Melbourne, at the Police Court, this morning, with using false scales. Inspector Withers said the defective scale of the first man was 3 per cent. against the purchaser the second 4 per cent. the third 5 per cent. The first and second defendants were fined \$10 each and the third \$15.

LAN TAO AFFAIR.

Sharp Passages in the Police Court.

Some very sharp passages were exchanged between Mr. Lewis of Messrs. Johnson, Stokes and Master and a police Sergeant, at the Police Court, this afternoon.

Eleven men were charged before Mr. E. A. Irving with feloniously counselling together to procure three persons not in custody to commit a felony—to take away by force and detain against his will a man named Chang Hoi-kit, with intent to procure a ransom, off Sha to Wan Island Lan Tao Island, about Midnight on the 20th ult.

Mr. Hodgson, Assistant Crown Solicitor appeared for the prosecution, and the first eight men were represented by Mr. L. D'Almada, the last three, being represented by Mr. Lewis.

Mr. Hodgson said he was not in a position to go on with the case and asked for a remand; he was only instructed that day.

Mr. D'Almada:—The police have had ample time to instruct the Crown Solicitor.

Mr. Lewis said the offence was stated to have occurred on 26th September.

Mr. Hodgson:—There are a number of defendants, and there is an amount of evidence to procure. The offence did not take place in the Colony, but off one of the neighbouring islands, and it is very difficult to get the evidence.

Mr. Lewis:—You ought to be able to put some evidence before the Court. I ask your worship to take what evidence the police have. It is very hard for the defendants, if they have to go to the sessions, that they should miss these coming sessions. If the case is remanded, I apply for bail.

Mr. Hodgson opposed bail.

Mr. Lewis said he could not see why his Worship should not grant bail. A day had been fixed for hearing, and the men were remanded without a single word of evidence being heard. If the police did not go on with the case it would mean that these people would be kept until November.

Mr. L. D'Almada:—I was only instructed at twelve o'clock this morning and I am ready to proceed now.

Mr. Hodgson:—I will call evidence of arrest if you like but I reserve the right to recall the Sergeant later on.

Sergeant Brazil then went into the box and said that about 3 p.m. on 27th September on account of information he received he went on board the junk containing the defendant which lay one mile southwards of Colowan Island. The first eight men were on the junk and they were arrested. The other three were arrested later on in the afternoon at Tai O Village.

At a later stage the sergeant refused to answer Mr. Lewis' question and said that what he had told him out of Court, between themselves he was bringing up now.

The argument took place, as we were going to press.

NEW BATTLESHIPS.

Plans for the new super-Dreadnought battleship, which is to be commenced at Portsmouth Dockyard as soon as possible after the Iron Duke has been launched in October, have been received by the Construction Department. No details have been allotted to transpire, as everything relating to the ship is regarded as strictly confidential. It is, however, known that the new ship will be larger than the Iron Duke, which is to have a displacement of 25,000 tons, and will be close on 300ft. in length. The Iron Duke will be armed with ten 13.5in. guns, as well sixteen 6in. guns for her secondary armament, the latter being placed behind arm, our protection.

The new ship will, it is understood, have a displacement of 28,000 or 27,000 tons. It is highly improbable that the Admiralty will depart from the present battleship speed of twenty-one knots, as any vessel with a speed much higher than that would outclass all the present super-Dreadnoughts.

The armament will comprise ten of the new 13.5in. guns, with a strong secondary battery of 6in. guns. It is also regarded as

certain that protection will be provided against overhead attack by bomb-dropping from aeroplanes. For this purpose an armoured upper deck will be provided, and some form of protection for the funnels.

The building-ship from which the Iron Duke will be launched is to be extended, but that will not delay the commencement of the new ship. Ever since the commencement of the Dreadnought era the Admiralty have been very strict as to secrecy about details, and no one is allowed to go anywhere near the building-ship without a special permit.

A rumour has been current at Portsmouth that motor engines will be provided for the next group of super-Dreadnoughts, but in official circles that is denied. The engines will be on the turbine principles, similar to those of the Orion.

Stole Dried Fish.

A man charged, with stealing dried fish from the premises of the Kowloon Godown Co., valued \$5-15, was sent to goal for one month and ordered to keep in the stocks for four hours by Mr. O. D. Melbourne, at the Police Court, this morning. Inspector Kerr proved the charge.

LOG BOOK.

British and Australian Shipping Congestion.
At a meeting of prominent Australian and British shipping representatives in London on September 20, the British and Australian shipping congestion was discussed. One speaker said that 15,000,000 people were wanted at once to bring up the population to 20,000,000, which they regarded as the minimum of safety. Big transport development was therefore required and if British companies did not rise to the occasion Australia would have to look elsewhere.

Whaling in Chosen Waters.
According to reports made by the Oriental Whaling Company in Osaka, 240 whales valued at Y210,480

LOG BOOK.

New Coal Depot on Dalren
Wharves.

The existing Coal Depot on East Quay, Dalren Wharves, becoming too small, the site for another depot has been selected in front of the Harbour Works Office.

Another Addition to the Japanese Register.

The British steamer Langbank, 2,038 tons net, which arrived at Yokohama from Rangoon on the 2nd ult. with a cargo of rice, is reported to have been sold to Messrs. Suzuki Co., of this port. She has been renamed the Pakuku Maru.

Chairman of the B.I. It is understood says "Shipping and Engineering," that Lord Inchcape, Chairman of Directors of the British India S. N. Co., who recently resigned his seat on the Dominion Trade Commission, has done so for the purpose of giving all his attention to the competition that has arisen between the B.I. company and the Japanese lines that have monopolized the Indian trade. Lord Inchcape is reported to be negotiating with the Nippon Yusen Kaisha with a view to finding a basis of agreement in place of the ruinous competition that has reduced the freights between Calcutta and Japan to one-fourth of their former level, and some hopes are entertained of a successful settlement resulting.

FAULTS IN TOBACCO
CULTURE.

Tobacco planters throughout the United States should make larger profits than they do, according to Department of Agriculture officials who have been studying the question. Planters now receive about \$20,000,000 a year for their average crop of one billion pounds.

Improper cultural methods limit the crop to one-third of what it should be, experts declare. In the Connecticut valley, says the "Evening Post" where the soils are maintained in a high state of fertility, yields of 2,000 pounds and more to the acre are common. On similar soils in many of the manufacturing and export districts the average yield is scarcely one-third of this.

Experts characterize the one-crop system, instead of rotation, as one of the improper cultural methods. Use of unadapted varieties of strains of tobacco, damage by insects and diseases, and imperfect knowledge of the process of curing, fermenting, and handling leaf, are given causes of small profits.

Full Rice Harvest in Nanking.

The farmers in the districts around Nanking have just harvested a full rice crop. The rains have not been so frequent or so heavy as is customary but have, nevertheless, been sufficient for the growing crops. The corn is well-filled and is now being gathered to make room for the broad bean harvest in November. The ginger yield, which amounted to twenty piculs per mow, was unusually good.

Convict's Widow gets £200,000

The widow of Christopher Columbus Wilson, the former "Wireless King" who died in the Federal Prison at Atlanta Ga., recently, it is stated, will come into a fortune of £200,000 which Wilson is believed to have hidden before the exposure of his operations in United Wireless stock. Mrs. Wilson was formerly a stenographer in Wilson's office. She married him immediately after his indictment in 1910, and therefore, was prevented from becoming a government witness against him.

ult., and is expected here on the 18th
inst.

The T. K. K. s.s. Tanyo Maru left
San Francisco for Hongkong via
Honolulu, Japan ports and Manila on
the 27th ult., and is due here on the
28th inst.

The T. K. K. s.s. Shinyo Maru left
Honolulu for San Francisco on the
1st inst., where she is due on the 7th
inst., and leaves again for Hongkong
on the 19th inst.

CANADIAN MAIL.

The C. P. R. Co.'s s.s. Empress of
Japan left Yokohama for Victoria and
Vancouver, B.C., on Wednesday, the
25th ult., at 6 a.m.

The C. P. R. Co.'s s.s. Empress of
India left Vancouver, B.C., for
Hongkong (via usual ports of Call)
on Thursday, the 26th ult., a.m.

GERMAN MAIL.

The I. G. M. s.s. Kleist which left
here on Thursday, the 5th ult., at 10
a.m., arrived at Genoa on Wednesday,
the 2nd inst., noon.

AUSTRALIAN MAIL.

The I. G. M. s.s. Coblenz left
Sydney on Saturday, the 21st ult., at
11 a.m., and may be expected here on
or about Monday, the 14th inst.

The E. and A. s.s. Eastern left
Sydney on the 26th ult., for this port,
via Queensland ports, Port Darwin,
Timor and Manila.

MERCHANT STEAMERS.

The Barber Line s.s. Wray Castle
sailed from New York on the 18th
July, for Hongkong via the Straits.

The Barber Line s.s. Manchester
Castle sailed from New York on the
25th July, for Hongkong and the Far
East.

The s.s. Egremont Castle sailed from
New York on the 12th ult., for the
Far East.

The s.s. Glenelg passed the Suez
Canal on Tuesday, the 17th ult., for
Hongkong via Straits.

The H. A. L. s.s. Belgravia left
Hankow on the 30th ult., a.m., and
may be expected here on or about the
5th inst., a.m.

The Swedish East Asiatic Co.'s s.s.
Peking left Suez on the 29th ult., and
is expected to arrive here on or about
the 23rd inst.

The s.s. Iechia left Singapore for this
port on Monday, the 30th ult., and
may be expected here on or about the
7th inst.

The T. K. K. s.s. Buyo Maru
will leave Hongkong for South America
via Japan ports and Honolulu on the
4th inst.

The T. K. K. s.s. Hongkong Maru
left Manila for Hongkong on the
29th ult., and is expected here on the
19th prox.

The T. K. K. s.s. Kiyo Maru arrives
at Callao from Salin Cruz on the 3rd
inst., and leaves again for Iquique on
the 7th inst.

The I.-O. S. N. Co.'s s.s. Fooching,
from Guaymas, (Mexico) is due at
Hongkong on the 21st inst.

The I.-O. S. N. Co.'s s.s. Oseang,
from Chinwanto, is due at Hongkong
on the 7th inst., and leaves for Obi-
wantso on the 17th inst.

The I.-O. S. N. Co.'s s.s. Kwong-
sang, from Shanghai, is due at
Hongkong on the 6th inst. and leaves
for Shanghai on the 18th inst.

The Shire Line s.s. Flintshire, from
London is due at Hongkong on the
9th inst. She passed Canal on the
10th ult.

The O. S. K. s.s. Panama Maru,
from Tacoma left Shanghai for this
port on the 3rd inst., a.m., and is due
here on the 6th inst., p.m.

The s.s. Fubi left Manila on
Wednesday, the 2nd inst., and is due
here on or about Saturday, the 6th inst.,
daylight.

The Dilwara from Calcutta left
Singapore on Wednesday afternoon,
and may be expected here on or about
the 5th inst., p.m.

The Danish s.s. Indien left Sabang
on Tuesday, the 1st inst., and may be
expected here on or about Wednesday,
the 3rd inst.

The Bos. Line s.s. Denali, from
Leith and London, left Singapore on
the 2nd inst., for Hongkong.

THE SCIENCE OF ADVERTISING.

Advertising is both a science and an art. We have studied that science.

Do you know the ART?

Can you write a catchy ad.?—very few can.

A good ad. is one that catches the eyes, then holds the attention.

Can you do it? We can.

Let us write your ads. for you, insert them in any paper you fancy, but let us write them for you, we like it, that will be our recompense.

Choose your paper, put them in, watch results.

ADVICE:—Insert them in the paper with the largest circulation—that is the secret of judicious advertising.

All the papers have the largest circulation, if you doubt it, ask them; then tell us, what they tell you.

The other fellow is losing all the money.

True; that is the reason he is able TO KEEP UP the advertising rate!

THEY KNOW that the other fellow is losing money hand over fist, if YOU doubt it, ask them, they will tell you candidly; "It is quite true."

The cheapest ad. is the dearest. Why? do you know your business and ask why?

Do you advertise because of friendship? No?

To reach the people? Yes, yes, that is the reason and it can only be accomplished by advertising in the paper that has the largest circulation. But if they all have the largest circulation, I must advertise in all the papers? Quite so. If you think

.....!

SERVICE MATTERS.

General Barrow.

Gen. Sir Edmund Barrow, commanding the Southern Army, has arrived home from India on leave. Lieut.-Gen. Sir John Woon, of the Secunderabad Division, is officiating at Outram until the end of October, when Gen. Barrow's term expires. Lieut.-Gen. Sir John Nixon will then take command of the Southern Army. R.G.A. Chief Instructor's New Appointment.

Col. H. L. Gardiner, who five months ago vacated his post as Chief Instructor at the School of Gunnery for Royal Garrison Artillery and Commandant at Lydd, has been appointed Colonel in Charge of Royal Garrison Artillery Records, in succession to Col. G. P. Tristram, D.S.O., who has taken command of the Western Coast Defences at Pembroke Dock.

Exchange. Major R. Heinemann, 3rd Battalion Middlesex Regiment, has exchanged with Capt. A. G. Dawson, 76th Punjab.

Naval Position of Japan.

The Japanese Naval Department has revised the standard of the classification of warships and the following are the statistics published by the department:—

Battleships	10
Battle Cruisers	4
Cruisers	22
Coast Defence ships	21
Gunboats	8
Torpedo Destroyer	50
Torpedo Bots	55
Submarine Bots	12

A New Major General.

Major Gen. P. M. Carnegy, whose promotion has just been gazetted, is in command of the Jullundur Brigade. He served for nearly six years with the 67th Regiment (now the 2nd Battalion Hampshire Regiment) before joining the Madras Staff Corps 23 years ago. He then went to the 4th Gurkha Rifles the 2nd Battalion of which he subsequently commanded. Gen. Carnegy has the Afghan war, 1878-80, and seven other campaigns to his credit.

LEGISLATIVE COUNCIL.

Mr. Pollock's Plan for a Wireless Station.

The following is the continuation of the Legislative Council Meeting, held yesterday afternoon.

According to notice, the Hon. Mr. H. E. Pollock, K.C., moved:—

"That this Council has read with pleasure the statement of the Postmaster-General, made in the House of Commons, on the 7th of August, 1912, to the effect that it is the intention of the British Government to erect, at its own cost, a £60,000 Wireless Telegraph Station in Hongkong and that such Station is to be used for the transmission of commercial cables, but that this Council regrets to learn from the said statement that the erection of such a Station is to be postponed till a later date, and that this Council begs to most respectfully urge upon the British Government the desirability of such a Station being erected in Hongkong at the same time as the Singapore Station."

Mr. Pollock said:—Your Excellency, I beg leave to move the motion which stands in my name, and as the hon. members have the motion in detail before them, I will, with your Excellency's permission, ask them to take it as read. This motion of mine has reference to the very important subject of wireless telegraphy which, as your Excellency is aware, has formed the subject of questions and debates in this Council for something like two years past. But, sir, all the information that we have been able to get upon the subject has, until the last few weeks, been very much of a tentative and provisional character. In fact when I asked the question in the Council at our last meeting on Aug. 22 this year, as to whether the Government could give any information to the Council, with reference to the establishment of a wireless telegraph station in this Colony, the Hon. Colonial Secretary replied that the Government was not yet in a position to give any information on the subject. That, sir, was the position of affairs so recently as a few weeks ago. Since then, however, there has come out to the Colony the report of a debate in the House of Commons on August 7—the last day of the session—in the course of which debate the Postmaster-General made a statement with regard to wireless telegraphy which gave us some very useful and very interesting and also some very pleasurable information. It appeared, sir, from the speech of the Postmaster-General on that occasion that various important bodies such as the Cable Landing Rates Committee, the sub-committee for Imperial defence and the Imperial Conference had taken into their joint consideration the question of communication by wireless telegraphy throughout the Empire and it appears, sir, from the speech of the British Postmaster-General, as the result of the Conference, that whilst of course it would be necessary to provide for the sending of all the necessary naval and military messages which are required for defence purposes, it was still considered practicable that a considerable number of commercial messages should be dispatched and so thereby considerably reduce the cable rates between the different parts of the Empire.

Mr. Pollock proceeded to give the points of the Postmaster-General's speech and directed special attention to the observation:—"Later, it was contemplated a station should be erected in Hongkong, and possibly in West Africa."

It is therefore clear, went on Mr. Pollock, from the Postmaster-General's speech that with reasonable speed and celerity there is to be erected a chain of wireless stations extending from England in the west to Australia in the East, and he tells us that it is contemplated that a station will be erected at Hongkong; but he puts in the words "later." In view of the importance of the colony as a centre for shipping, the unofficial members of the Council are unanimous in thinking that we ought to urge upon the British Government to carry out its intention to erect a wireless telegraph station in the colony not

"later" but at as early a date that it might be connected with the completion of the wireless telegraph station to be erected in the neighbourhood of Singapore. We consider that this is a matter of importance in regard to which the colony may fairly claim consideration from the amount of shipping which passes through it, it being the first port in the world as regards tonnage. We consider it desirable that this port should not be behind Singapore in the race but it should receive the same treatment as Singapore and the same treatment as Singapore is linked with England this Colony should also be linked with England. That, sir, is the object of bringing this motion before this meeting of the Council. The unofficial members desire that in this matter there should be no question of postponement delay. They consider, now that we have got Mr. Herbert Samuel's statement in the House of Commons, now, that for the first time we have got something definite and tangible to lay hold of in the matter, now, that we see that it is contemplated by the British Government to erect these various stations coming to Hongkong, we think we ought to press the matter home and to state that we regard it of the utmost importance for commercial purposes that we should be linked up with Singapore.

After referring to the fact that the Marconi Company had entered into a stringent guarantee as to the efficiency of their system, Mr. Pollock said:—

I think it is quite clear that in view of the stringent conditions that the Marconi Company has agreed that we may take it that for their own protection and in order that they may get the payment they will take care that very efficient service is put complying with that test of carrying messages for thousands of miles. I think there should be no delay in the matter, that we should be put in the same place as Singapore and in that way we should be able to communicate by wireless easily with England and the other places in the chain on the route. And, sir, I would venture to hope that your Excellency and the official members of the council are equally anxious with us, that Hongkong should be included in the effective chain of wireless telegraph stations.

The Hon. Mr. C. H. Ross in seconding the motion said the motion was one that should commend itself to many of the members and all the unofficial members. Wireless telegraphy was now a recognised means of communication not only between ships and the shore but also as an alternative to cables. He did not wish to deny the valuable services which had been rendered to the colony by the cable companies for they were indescribable but he thought that most of them would agree that their charges were far too high and if the high power station were only erected for the purpose of reducing the cable charges it would be well worth doing. They lagged behind with wireless telegraphy. They had it in Japan and the Philippines and even in parts of the neighbouring republic of China.

H. E. the Governor:—I am sure that you would all like to see Hongkong participating in any large scheme of Radio-telegraphic communication throughout the Empire but I think you must agree with me the Government cannot accept this resolution. In the first place the government has no information about the particular scheme, which is an imperial scheme, referred to in the resolution. In the second place the speech to which the hon. mover referred was only the beginning of a debate in the House of Commons. We do not even know that the scheme has been adopted. In the third place, before the government can commit itself to any such scheme it would like to know of the details as to participation in the cost or otherwise from the station. We have no information about any of these matters and all I can do is to ask the Secretary of State for information about the scheme, to forward the resolution and the speeches of the hon. members who moved and seconded and to say that they are very desirous that Hongkong should not be left out of the scheme. I think, if I do that, the

object which the Hon. members have in moving and seconding the resolution will be met, and, as I do not wish to vote against the resolution, I would suggest to the hon. members that they withdraw it. I would merely add that, with reference to the hon. member's statement, as to a local commercial station, that if he turns to the local estimates he will see that we have provided a sum for that particular object.

The Hon. Mr. Pollock said he would agree to that course if the unofficial members of the Council had an opportunity of signifying their feeling in connection with the resolution, and, on all of them stating that they agreed with it, the resolution was withdrawn.

The Estimates. At the conclusion of His Excellency's Budget speech the following transpired:—

The Hon. Mr. Pollock:—When is your Excellency to move the second reading?

His Excellency:—If convenient to hon. members, in a fortnight, on the 17th. Is that convenient?

The Hon. Mr. Pollock:—Yes.

Other Business. The Hon. Attorney General moved the Second Reading of the Ordinance to amend the Larceny Ordinance, 1865. He explained that he desired the Ordinance to provide special powers to deal with the theft of electricity. He supposed when the ancient law relative to theft was originally promulgated electricity was unknown but modern requirements required corresponding changes in the law.

The Hon. Colonial Secretary seconded and the motion was carried.

The Hon. Attorney General moved the Second Reading of the Bill entitled An Ordinance for the further relief of innkeepers, and in doing so said:—The object of this Bill, sir, is to give the innkeeper a greater right over the property of the persons lodging in his hotel or inn than he has at present. The idea of the Bill is to enable innkeepers really, to have a substantial hold over those persons who are their guests, for the debts and costs which have been incurred by the innkeepers in connection with hotel visitors charges, particularly the right to sell articles which might have been left on the premises by the guests at the hotel or inn. This sale of perishable goods may be immediate, but in the cases of goods not perishable, must take place within certain specified times. In the second section the innkeeper is defined. In the third section is laid down the exact right that the innkeeper has over the property of the person.

The second reading was passed.

The Hon. Attorney General in moving the Second Reading of the Bill to amend the Post Office Ordinance, 1900, said he proposed that the words at the end of the clause should read, "No gratuities shall in any case be paid in cases of mails in transit."

The motion was carried.

The other motions standing in the name of the hon. Attorney General were passed.

His Excellency:—The Council is now adjourned until the 17th inst.

CHINA COAST GAZETTE.

Mr. W. Davies, chief engineer, Kiangshin, is on leave.

Mr. P. McIntyre, from leave, has gone chief engineer, Kiangshin.

Mr. T. Tomlinson, from leave, has gone chief officer, Kiangkwan.

Capt. S. V. Frigate, of the Kiangkwan, is on leave.

Capt. J. Halkett, of the Hsin-kong, has gone master, Kiangkwan.

Mr. H. Frogatt, chief officer, Hsin-kong, is acting master, same steamer.

Mr. S. Gibson, second officer, Hsin-kong, is acting chief officer, same steamer.

Mr. O. Phillips has been appointed second officer, Hsin-kong.

Mr. G. Banks, acting third engineer, Kiangfoo, has resigned.

Mr. C. Lind, second officer, Kiangshin, is awaiting orders.

Mr. B. Pettigrew has been appointed second officer, Kiangshin.

Mr. J. H. Davey, chief officer, Kiangkwan, has gone chief officer, Anping.

Mr. J. F. Mackie, chief officer, Anping, is on leave.

COMMERCIAL.

Gold Yield of Australasia.

The quantities of the precious metal won in the states of which complete returns are to hand and of the export from New Zealand during the month of June 1912, and for six months together with a comparison with the like periods in previous year, were:

	June.	June.
	Fine ozs.	Fine ozs.
N. S. Wales	1911. 1012.	
Victoria	13,272 8,819	
Queensland	47,077 39,510	
W. Australia	34,018 27,789	
N.Z. Export (oz.)	116,987 108,143	
	24,279 12,707	
	Six Months.	Six Months.
	Fine ozs.	Fine ozs.
N. S. Wales	1911. 1912.	
Victoria	88,582 78,308	
Queensland	251,945 228,985	
W. Australia	184,641 170,354	
N.Z. Export (oz.)	672,360 627,845	
	222,648 199,276	

July.—The only returns to hand so far for July are:

Western Australia 105,803 (112,721) f. oz., making 733,484 (785,081) f. oz., for the seven months, and New Zealand 38,521 (49,306) oz. raising the total for seven months to 237,797 (260,655) oz.

Siam's Trade.

Inquiries the "Siam Observer" has made concerning the trade prospects in Siam for the present year show that the delivery of timber will be smaller than usual, but this depends mainly on whether good rafting waters will continue. This is a late rafting season, but conditions are favourable at present and it is a question of how much it will be possible to get down before the water subsides again. There is a good deal of timber lying in the creeks, and before it can be got clear the end of the season may be reached, the rains ceasing and the logs becoming stuck again.

Prices are likely to rule high for rough timber, and the task market generally just now is in good condition. As regards the supply of timber for the European market the quality seems poorer than in former years, and consequently there is not so much of the first-class quality demanded for export there as in former years.

As regards paddy, the crop prospects are apparently good, but so very little information of a definite nature comes forward. It is very difficult to get reliable timely information from the provinces. The rainfall, though beginning late, has continued favourably.

There has been a great drop in the paddy market since last month, the slump in Singapore and other Straits centres being reflected at Bangkok. The best white rice at Singapore in the middle of July was quoted at \$370 per cayan. But since then the market has been steadily declining, and the quotation to-day was \$365 per cayan, which shows the remarkably drop of about two pence per picul. The price prevailing at present is the lowest recorded since March.

There is glut of rice at Penang and Singapore, due to the many cargoes shipped thither from various parts, notably Burma, in an endeavour to take advantage of the high quotation ruling recently, but with so much coming forward the bottom was knocked out of the market.

Yokohama Tea Trade.

The export of tea from Yokohama in 1911 showed a further decline from 5,460 to 4,340 tons, corresponding to an increase in the export from Shimidzu from 8,630 to 10,700 tons. The centre of the trade has now entirely shifted to Shimidzu, in which district all the firing, now largely in the hands of the Japanese, is done. Being only 13 miles distant from Shidzuoka, the port of Shimidzu has an obvious advantage in point of proximity over Yokohama as a port of shipment, and though proposals have been made to lessen the freight on tea from Shimidzu to Yokohama in such a way as to make it still feasible to ship the tea at the latter port (thus obviating the call by steamers at Shidzuoka), the project seems to have fallen through, partly, no doubt, as a result of the not unimportant position shown to the colony by the merchants of Shimidzu.

COMMERCIAL.

Shanghai Cotton Report.

Mr. A. B. Rosenfeld, in his Cotton Market Report dated 28th September, writes as follows:—
China Cotton.—The market has had rather an active appearance during the past week, with the close last night showing an advance of some six mace. The salient point of the work has been the sudden change of the prospects for a bumper crop, owing to the excessive wet weather we have had, and the damage done damage done is far more than at first anticipated. The receipts from interior marts are coming in very slowly, and whatever spot cotton is available is readily taken up by mills and exports to China ports; so with the bareness of stocks of better grades in the hands of jobbers and the attitude taken by the farmers, it is looked up in some quarters as a strong feature for firm prices for the next couple of weeks. Whether such former prices will or will not rule at the end of that time, will be decided by the preponderance of actual demand and supply. Returning to the October liquidation, the immediate future will be governed by the volume of October contracts still to be liquidated or transferred, and in figuring on this point it is well to bear in mind that there are heavy short commitments to cover before the market will be relieved of that weight. Eliminating this feature, however, the tendency will every day be stronger to base operations on the outlook of the silver market, and the course Japan and China markets will take when buying proves favourable. Tone of the market, steady.

Sugar Beet in Chosen.
The "Bulletin Commercial"
states, on the authority of the
Belgian Consul at Seoul, that
efforts have been made for some
years to establish the sugar
industry in Chosen, and the most
satisfactory results have been
obtained from experiments in
beet growing carried out in the
northern provinces. The prospects
are in fact so encouraging that a
group of influential Japanese and
Chinese capitalists have arranged
to form a company with a capital
of £500,000 for the purpose
of carrying on beet growing
on a commercial scale. It is pro-
posed to conduct operations in
the extensive plains situated in
the Hoang-Shu district, which is
traversed by the Fusan-Antung
railway.

Java mines.
According to a telegram from
Lebong Donok to Batavia, 8,290
tons of ore were milled at the
Redjong Lebong mines during
August, giving an average of
12.21 dwts of gold per ton. 2,843
tons of sands and 4,847 tons of
alluvial were also treated. The
total yield was 4,783 oz. gold and
25,021 oz. silver, altogether valued
at about £272,000. The ore
reserves on September 1 were
estimated at about 221,000 tons,
of an average assay of 11.7 dwts
gold per ton.

SANITARY BOARD OFFICE, HONGKONG.

TO THE OWNERS OF DOMESTIC BUILDINGS.
TAKE NOTICE that under No. 5 of the DOMESTIC CLEANLINESS AND VENTILATION BY-LAWS (as amended), every Domestic Building or part of such Building within the EASTERN Division of the City of Victoria, occupied by Members of more than one family, except those within the European Reservation or in Kowloon South of Austin Road or those parts of a Domestic Building used as a Shop, Office or Godown, must be OLEANSSED and LIMEWASHED THROUGHOUT by the owners during the months of October and November.

N.B.—The word "throughout" used in this notice means that the houses should be limewashed in respect of all the Walls of each Room, all Cubicle Partitions, Stair Casings and Stair Linings, all Ceilings and the Undersides of Roofs in Main Buildings, Offices and Servants' Quarters and inclusive of Verandahs.
The Backyard must have its Containing Walls Limewashed up to the level of the First Floor.
Carved, Painted or Polished Woodwork in good condition, however, need not be limewashed but must be Oiled.

THE EASTERN Division of the City is bounded on the West by Gilman Street and Peel Street. Kowloon is divided into the Eastern and Western divisions by Nathan Road and straight line drawn from the North thereof through the Yau-mai service reservoir to the Northern boundary of Kowloon.
N. BOWER-BOWLANDS,
Secretary,
Dated this 1st day of October, 1912.

COMPANY REPORT.

The report for presentation to Shareholders at the Thirty-first Ordinary Meeting to be held at the Offices of the Canton Insurance Company, on Wednesday, 23rd October, at noon, states:—

The General Agents and Consulting Committee have pleasure in submitting a statement of the affairs of the Office which, to conform with the provisions of the Companies Ordinance 1911, are made up to 30th June last.

1911 Account.—The amount standing to the credit of this Account is \$585,998.44. It is proposed to deal with this in the following manner:—

To pay a Dividend of \$18 per share, \$180,000.00
To add to Investment and Exchange Fluctuation Account, \$100,000.00
To carry to the Credit of Underwriting Suspense Account, \$305,998.44

1912 Account.—The balance at Credit of this Account at 30th June is \$857,279.56.
Consulting Committee.—The Hon. Sir Paul Chater, O.M.G., and Messrs. D. W. Craddock, F. Maitland, H. P. White and E. Shellim retire, but being eligible, offer themselves for re-election.

Auditors.—The accounts have been audited by Messrs. H. Percy Smith, F.C.A., and A. R. Lowe, C.A., the latter in place of Mr. W. Hutton Potts resigned. Messrs. H. Percy Smith, F.C.A., and A. R. Lowe, C.A., offer themselves for election to hold office until the next Ordinary Meeting.

Auditors' Report.—We report that we have examined the Accounts of the Company at the Head Office with the Books and Vouchers in Hongkong and returns received from the various Agencies for the year ending 31st December, 1911 and the half year ending 30th June, 1912. We have also satisfied ourselves as to the existence and value of the Securities for Investments, Cash at Bankers and on Mortgage to the amounts specified. We have obtained all the information and explanations we have required and, in our opinion, the above Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the affairs of the Company according to the best of our information and the explanations given to us and as shown by the Books of the Company at 30th June, 1912.

H. Percy Smith, F.C.A., A.R.

Lowe, C.A.

Correspondence.

CHILDREN'S SPORTS.

[The opinions expressed by our correspondents are not necessarily those of the "Hongkong Telegraph."]

Sir,—I should be greatly obliged if you would grant me space in your columns to make public the following concerning the Children's Sports, held hitherto on New Year's day under the auspices of the Kowloon Cricket Club.

From a small beginning the event has become very big and year after year continues to be an unqualified success. Given the necessary funds this success should continue, even though the number of children catered for should greatly exceed the record number attending last year.

The question of the collection of the necessary funds, however, bids fair to become acute in the near future. Amounts collected and disbursed on the last three occasions are as follows:—

Collected	Expenses
1910 \$808.00	\$793.33
1911 859.35	702.24
1912 633.80	812.69

\$2,100.95 \$2,308.26

Expenses have therefore been in excess of subscriptions by \$207.31, but a balance in hand of \$307.98 on January 1st, 1910 enables us to retain a balance unexpended at date of \$100.65.

These figures indicate that the Sports at present held, may soon have to cease, but rather than discontinue an event to which the Children of the colony look forward with great eagerness annually, my Committee wish to appeal to you and your contemporaries to relieve them of the responsibility of collecting the necessary funds by means of subscription lists in your columns, and they would further suggest that the funds collected be handed to a Committee consisting of the Vice-President of the Kowloon Cricket Club, the Chaplain of St. Andrews Church, and a representative of the Press who will act as trustees for the same.

The Kowloon Cricket Club would be pleased to loan their ground and be responsible for the actual running of the Sports as in past years.

I am authorized to state that if these proposals are not acceptable to the public or the above mentioned persons, the Club will endeavour to run the Sports on January 1st, 1913, in the same manner as in the past, but in the event of a loss to themselves the Sports will, in all probability, be held thereafter on a much restricted basis.

Yours faithfully,

A. O. Brown,

Hon. Secretary.

Kowloon Cricket Club.

Kowloon, 3rd October, 1912.

Indian Overland Trade.

The total value of the overland trade of India for the three months ended June 30 was 528 lakhs as against 459 lakhs during the corresponding period of 1911. To these total Burmas contributed 175 and 155 lakhs respectively. During the quarter the imports to Burma were Rs. 79,57,578 as against Rs. 74,67,942 in the corresponding quarter of 1911 and the exports from Burma were Rs. 95,44,389 against Rs. 90,31,669.

POST OFFICE.

SIBERIAN ROUTE, SUPERSCRIPTION UNNECESSARY FOR EUROPE.

Letters and post cards for Europe will in future be despatched by the route of Siberia unless marked by the sender for transmission by another route. Printed matter and samples will continue to be sent by the "Suez Canal" route.

The Public are requested to have their correspondence addressed to their house numbers and not their house names, as such names are often confusing to Chinese Postmen.
